

Age Friendly Ireland is helping to create an inclusive, equitable society in which older people can live full, active, valued and healthy lives. The Age Friendly Business Recognition Programme is run nationally with the support of and in partnership with Chambers Ireland and Local Authorities. See the National Age Friendly Business Directory at www.agefriendlyireland.ie

WELCOME TO
AGE FRIENDLY
KILKENNY!

Young or old, we all want similar things; to be acknowledged and valued, to enjoy ourselves socially, and to be able to shop and access business and other services with ease. As an Age Friendly County with more and more businesses becoming Age Friendly Accredited, Kilkenny is becoming a great place for older people to enjoy.

Kilkenny's Accredited Age Friendly Businesses have asked older customers for their input and have undergone training with a view to becoming more Age Friendly. Some have taken simple steps. Some are more ambitious, but all have committed to letting older people know that they value their business and are committed to serving them.

Examples of commitments made by accredited businesses and service providers include simple things like using larger and clearer fonts on print materials and signage, providing spare reading glasses, offering to carry shopping, turning down excessively loud music, offering a seat, or having designated Age Friendly parking.
